Subject: Environmental air consumer products
manufacturers interaction with Federal regulatory
agencies

Date of Meeting: Thursday, August 11, 1994

Place: CPSC, Bethesda, Maryland

Log Entry Source: Clarence T. Bishop, Executive Assistant to the
Commissioner

Commission Representatives:

1. Jacqueline Jones-Smith, Commissioner CPSC
2. Clarence T. Bishop, Executive Assistant to the
Commissioner

Non-Commission Representatives:

1. T.T. Lithgow, Jr., President & CEO, Bionaire

Summary of Meeting: Mr. Lithgow established that, as a part of a growing industry, a number of environmental air consumer products manufacturers are interested in proactively working with CPSC, EPA and related Federal agencies on safety, health and indoor air quality issues through the American Household Appliance Manufacturers Association (AHAM). AHAM is holding its annual convention in Chicago, IL, January 15-18, 1995 and is considering seeking Commission participation in the environmental air consumer products portions of the conference.

Commissioner Jones-Smith suggested that Mr. Lithgow provide a detailed proposal of what the environmental air consumer products industry has in mind for the Chicago event and that she would share it with agency staff to explore mutually beneficial, cooperative efforts.
